What is the programme all about?

The Indian Institutes of Technology (IITs) are considered among the best engineering/technology institutions in the world. They are also among India's most well known brands. In a fresh beginning, the Government of India - through this programme, offers fully funded fellowships exclusively for ASEAN aspirants to pursue PhD at an Indian Institute of Technology (IIT) of their choice. This an exclusive programme and different from all other Government of India programmes such as Study in India and all other fellowships. Accordingly, it doesn't share any common application procedure with them.

Where will the fellowships be hosted?

The programme offers fellowships only at IITs, and is not meant for any other Indian educational institution.

How do I avail the fellowship?

Apply online (on this portal) to all programmes you wish to apply for, and every selected candidate is awarded the fellowship for pursuing PhD.

When will the applications be launched?

Applications are accepted on an ongoing basis. See the "Important Dates" section on the homepage for the deadline of the current round.

How much funding is provided as part of the fellowship, and for how long?

The fellowship is at par with that for Indian research scholars and covers the entire cost of study and living expenses for up to 5 years of the PhD programme. It provides an additional contingency fund to cover research expenses such as travel and books.
